

ISHYIGA POS

INTRODUCTION

ISHYIGA POS is developed for optimal management of a retail stock, sales and automated refilling, taxes (Rwanda Revenue Authority Certified Invoices) such as Supermarket, pharmacy, shops, beauty shops, gas stations, bars and other businesses that might need a stock management system. The main aim of POS is to have stock management in which all the information regarding the stock of the organization will be presented. It also contains the report of the company's profile, sales details, purchases details and the remaining stock.

ISHYIGA POS is consisted of 2 parts:

- POS CMD for retail stock management.
- POS CAISE for selling items.

POS CMD

ISHYIGA POS CMD (stock) was developed for management of retail stock used by stock managers in different actions.

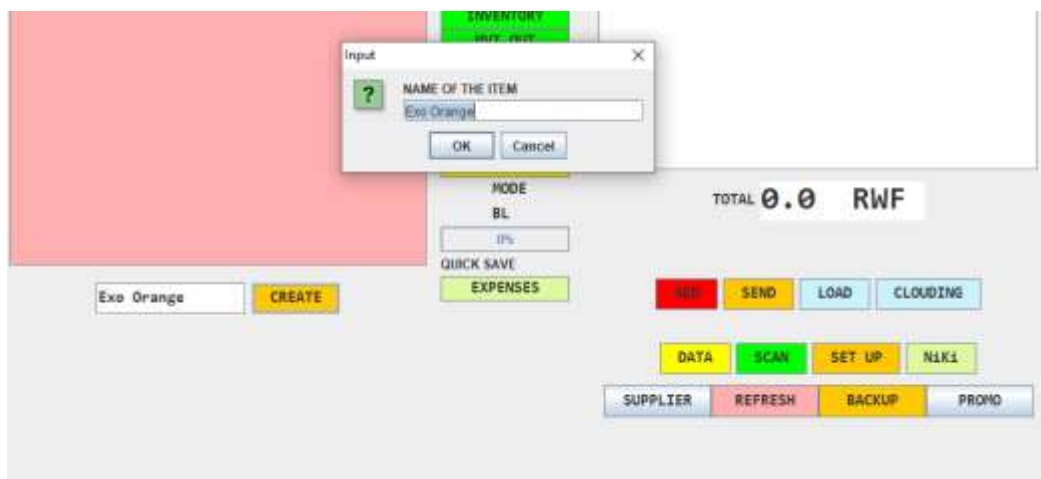

CREATE ITEM

CREATE is a button visible to POS homepage used for creating new items.

SET UP

SET UP is a button used for making change of purchasing price of items and to set item's coefficient.

STEPS

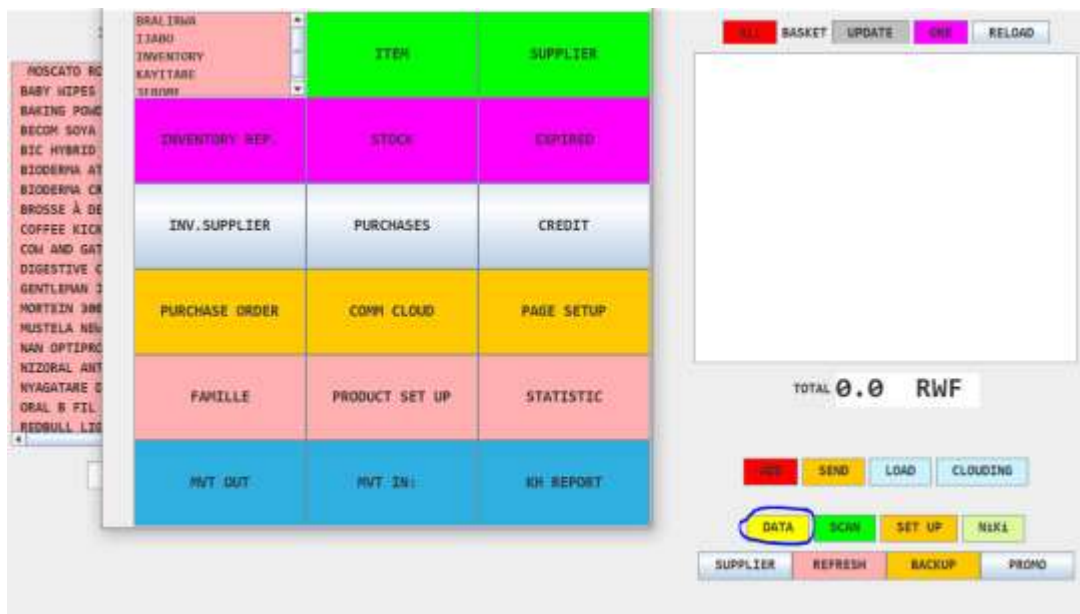

1. Click SET UP (right side) → select item → click PRICE button → enter new price → press OK.

The screenshot shows the POSCATO application interface. On the left, there is a list of products including ROSCATO ROSA, BABY NIPES, BAKING POWDER, BECOM SOYA TEA, BIC HYBRID 4, BIODERMA ATOX, BIODERMA CRE, BROUSSE A DENT, COFFEE KICK, COM AND GATE, DIGESTIVE CL, GENTLEMAN JAW, NORTEIN 300ML, MUSTELA NEWBORN-BABIES FOAM SHAMPOO, NAN OPTIPRO 1, NIZORAL ANTI-DANDRUFF SHAMPOO, NYAGATARE DAILY MILE, ORAL B FIL DENTAIRE SUPER FLOSS GOÛT DE MENTHE, REDBULL LIGHT, and REDBULL LIGHT. The main area displays a list of products with their names, codes, and prices. On the right, there is a summary panel with a yellow 'BAR CODE' section, a red 'PRICE' section showing '2', a blue 'NAME' section, and a green 'COST' section showing '0.0 RWF'. At the bottom, there are buttons for 'CREATE', 'EXPENSES', 'SEND', 'LOAD', 'CLOUDING', 'DATA', 'SCAN', 'SET UP', 'MENU', 'SUPPLIER', 'REFRESH', 'BACKUP', and 'PROMO'.

DATA

DATA is a general button which is used for many purposes like viewing different reports, it consists of many buttons visible when clicking the DATA button.

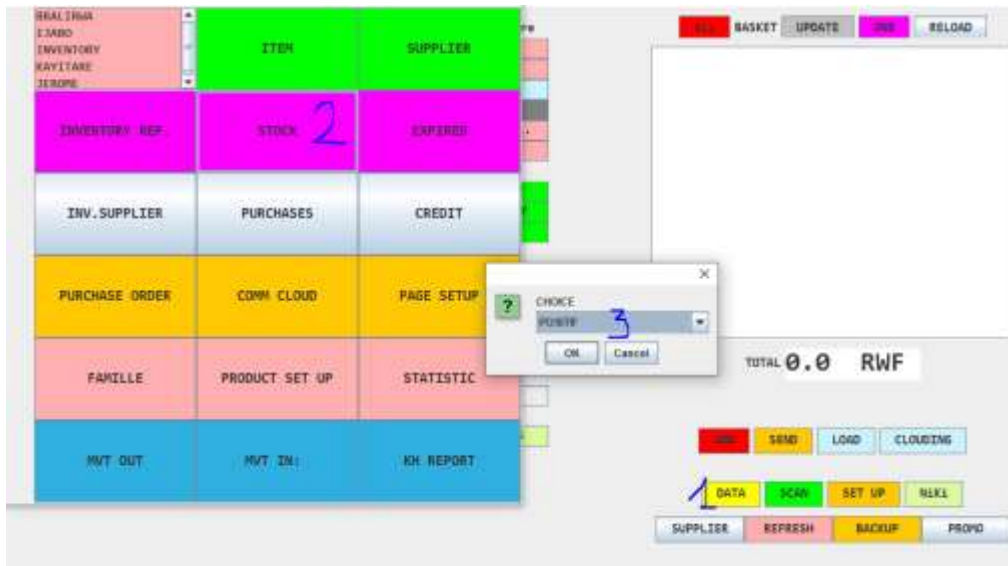

The screenshot shows the POSCATO application interface with the DATA menu open. The menu is a grid of buttons with the following options: INVENTORY REP., STOCK, EXPIRED, INV. SUPPLIER, PURCHASES, CREDIT, PURCHASE ORDER, COMM CLOUD, PAGE SETUP, FAMILIE, PRODUCT SET UP, STATISTIC, MVT OUT, MVT IN, and KPI REPORT. The buttons are color-coded: pink for INVENTORY REP., STOCK, EXPIRED, FAMILIE, and STATISTIC; blue for INV. SUPPLIER, PURCHASES, CREDIT, and KPI REPORT; yellow for PURCHASE ORDER, COMM CLOUD, and PAGE SETUP; and green for MVT OUT, MVT IN, and PRODUCT SET UP. The background shows the same product list and summary panel as the previous screenshot.

STOCK

STOCK is used to view reports of current stock (stock positive) and stock report for any time.

STEPS

1. Click DATA → click STOCK → select positif or interior → press OK.

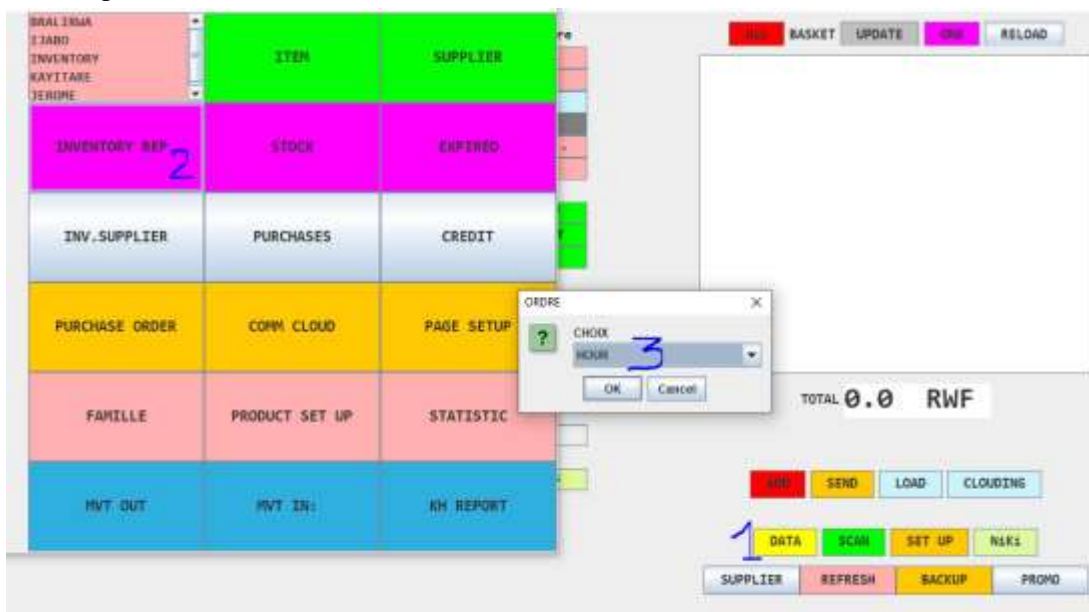

INVENTORY REPORT

INVENTORY REP. is used for seeing inventory reports.

STEPS

1. Click DATA → click INVENTORY REP. button → select hours (heure) → enter date interval → press OK.

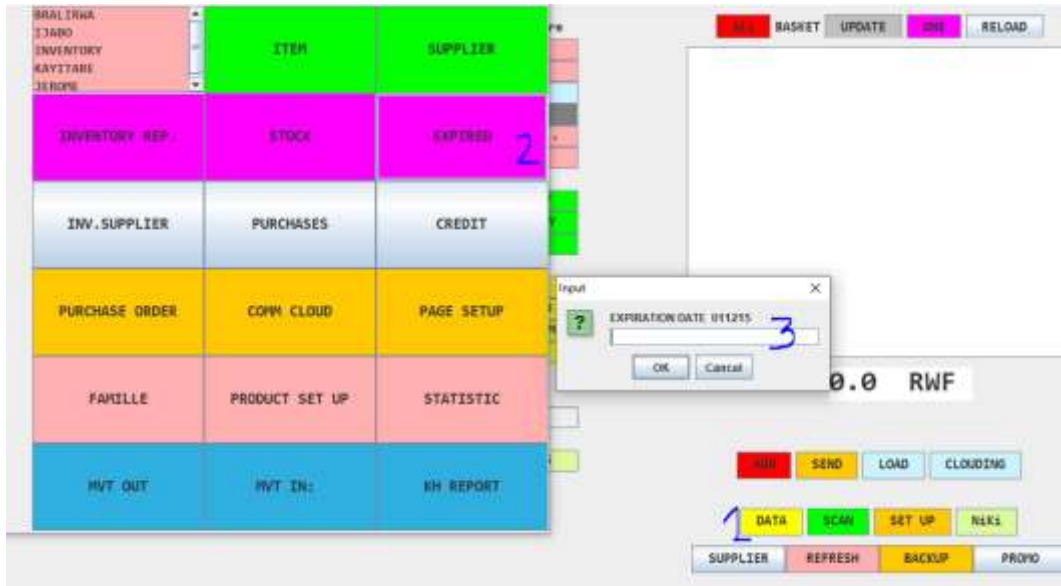

EXPIRED

EXPIRED is used to view products which will expire on a certain date.

STEPS

1. Click DATA → click EXPIRED button → enter expired date → press OK

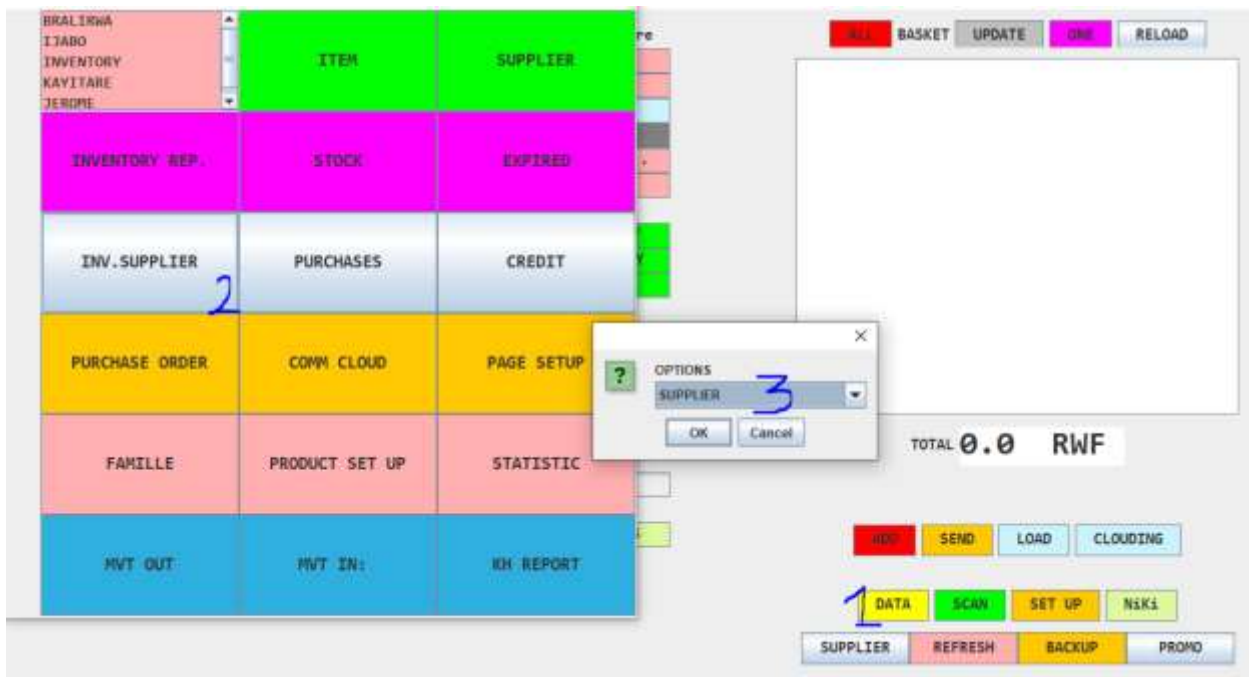

INV. SUPPLIER

INV.SUPPLIER it shows the report of Invoice from Supplier(delivery note).

STEPS

1. Click DATA → click INV.SUPPLIER button → select SUPPLIER → press OK

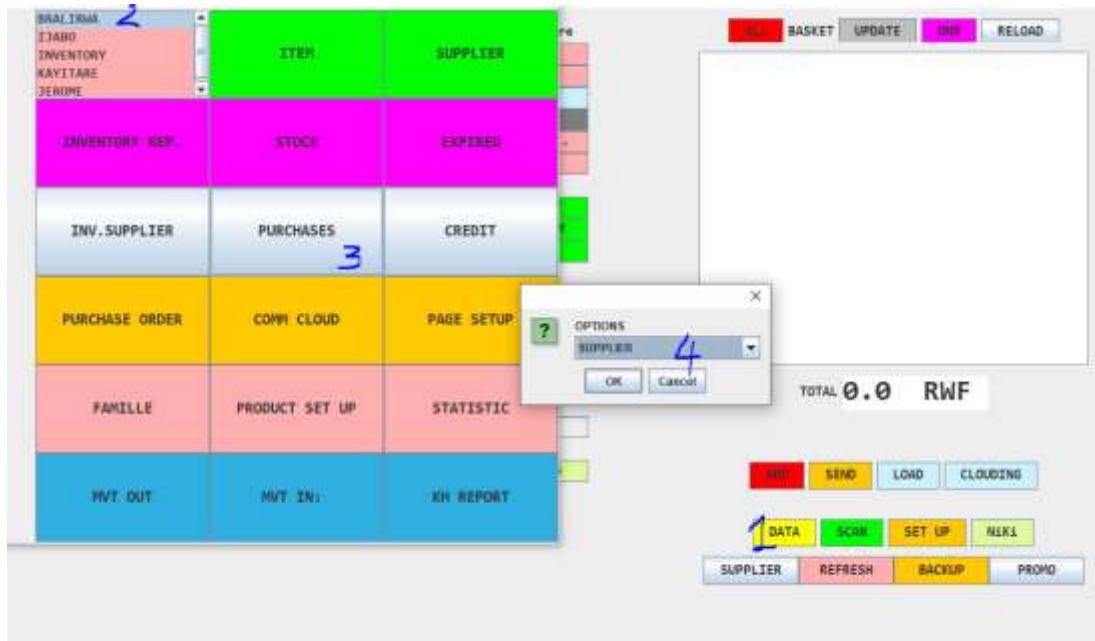

PURCHASES

PURCHASES is a button used to visualize all purchased items from the supplier.

STEPS

1. Click DATA → select SUPPLIER → click PURCHASES button → press OK.

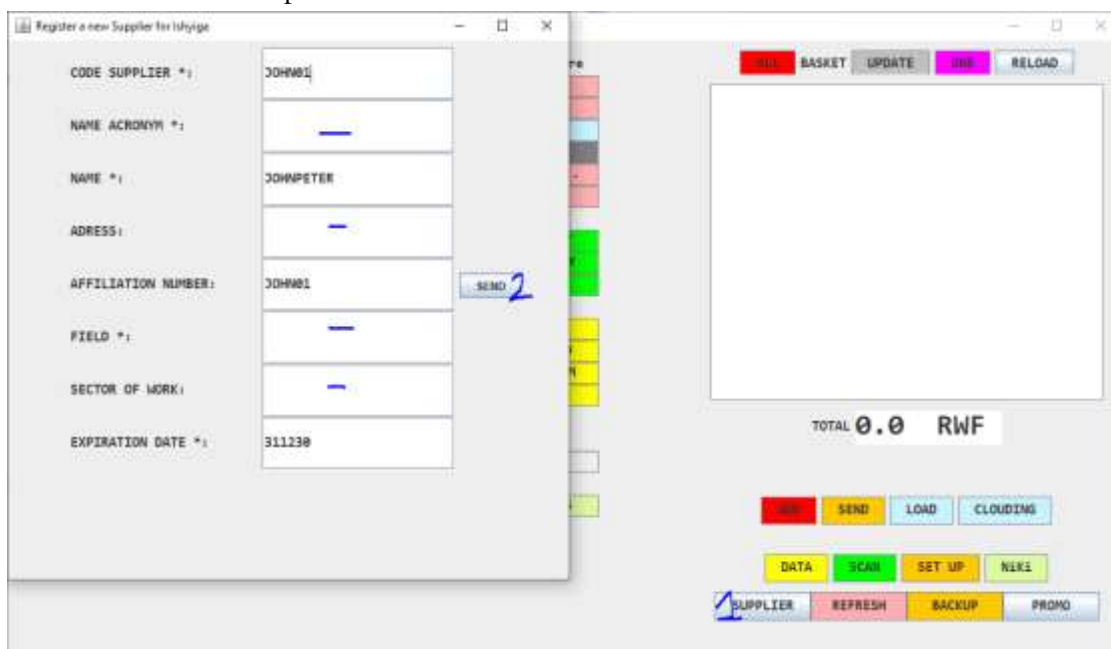

SUPPLIER

SUPPLIER is used for creating and updating new suppliers.

STEPS

1. Click the SUPPLIER button→ press YES→ enter supplier name→ press OK→ fill form →click ENVOYER→ press OK.

REFRESH

REFRESH is used for making systems well and also to return items into lists from sommeil(invisible).

STEPS

1. Click REFRESH button → select sommeil → select item → click ITEM button

The screenshot shows the main application window. At the top, there's a header with 'ITEMS' and 'ADD 9.2.0(CARL)'. Below this is a large red rectangular area representing a list of items. To the right of this area is a sidebar menu with various options like 'ITEMS', 'VIEW', 'MVT ONE', 'MVT ALL', 'STATIST...', 'AUDIT', 'Stock', 'DELIVERY', 'INVENTORY', 'MVT INV', 'Apprav.', 'CMD', 'AUTO CMD', 'ALGORITHM', 'COMM', 'MODE', 'BL', 'ON', 'QUICK SAVE', and 'EXPENSES'. At the bottom right, there's a toolbar with buttons for 'SUPPLIER', 'REFRESH', 'BACKUP', and 'PROPO'. A 'TOTAL 0.0 RWF' label is also visible.

2. Fill form (for status box select OK instead of sommeil) → click UPDATE button → press OK.

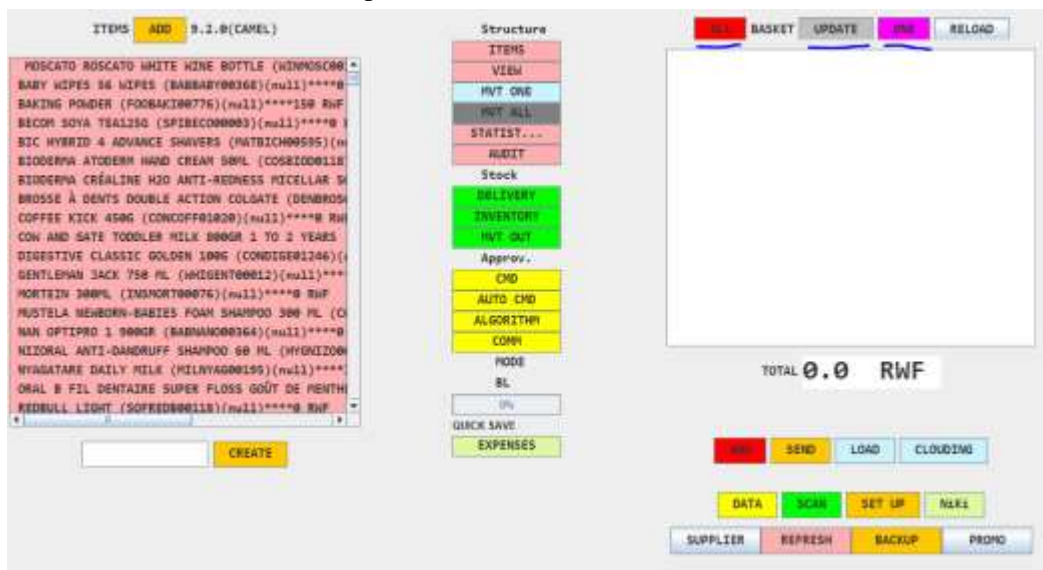

The screenshot shows a 'FILL NECESSARY' form. It contains several input fields: 'CODE' (BABABY00360), 'NAME' (BABY WIPES 56 WIPES), 'COST PRICE' (0.0), 'VAT' (0.00), 'BAR CODE' (3574661264813), 'OBSERVATION', 'MAX QTY' (0), 'FAMILY' (MILK), 'CODE EQUIVALENT' (ALCBEF00113), 'NAME EQUIVALENT', 'CONDITIONING' (1), 'STATUS' (OK), and 'CODE CLASSEMENT' (4322611000). A blue arrow points to the 'STATUS' dropdown menu, which has 'OK' and 'SOMMEIL' options. An 'UPDATE' button is located to the right of the form.

ALL, UPDATE, ONE

ALL, UPDATE, ONE are buttons used to make changes to items displayed inside the basket (right side) especially when there is anything done with an error in any action.

STEPS

- For enter items into basket
 - Select items → click ADD (on top) → enter quantity → enter LOT → enter expired date → enter price,
- For UPDATE
 - Select item (basket) → click UPDATE button (on top) → make any update (step by step) → press OK.
- For delete ONE item
 - Select item (basket) → click ONE button (on top). For delete ALL items Click ALL button (on top).

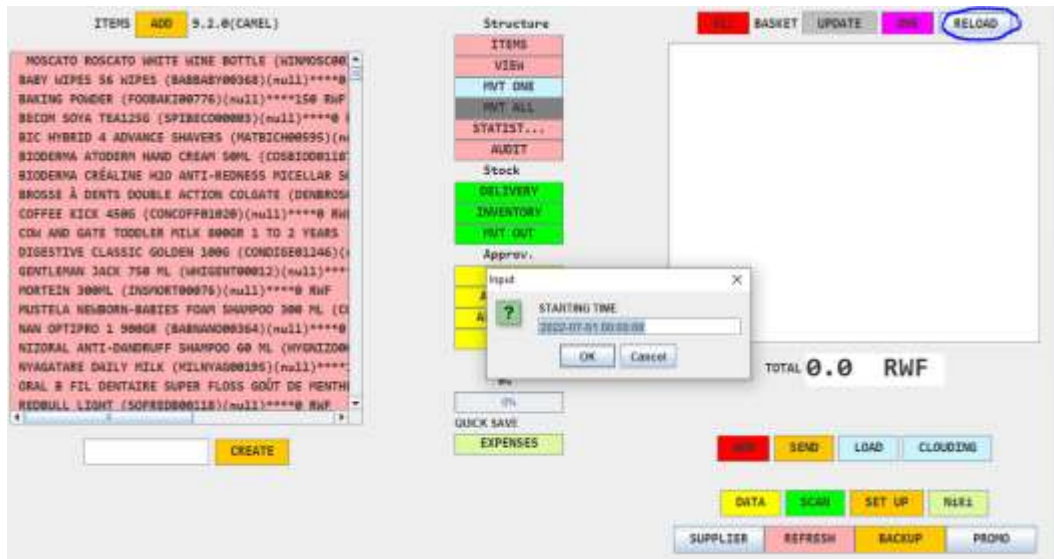

RELOAD

RELOAD is used when connection comes off by default, in order to come back where you are previously, when connection coming back;

STEPS

1. Click the RELOAD button (on top of the basket).

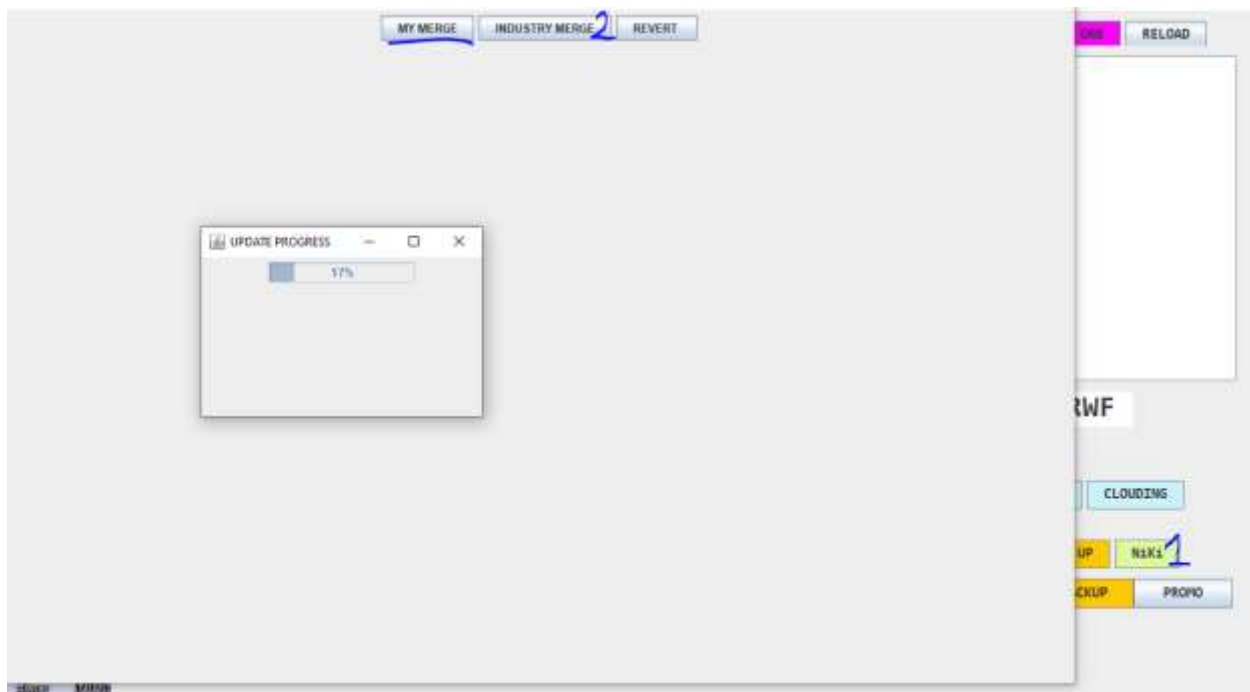

NIKI

NIKI is used for updating items in the system all pushing the created items for validation

STEPS

1. Click NIKI button → Click INDUSTRY MERGE for pulling/ click MY MERGE for pushing items

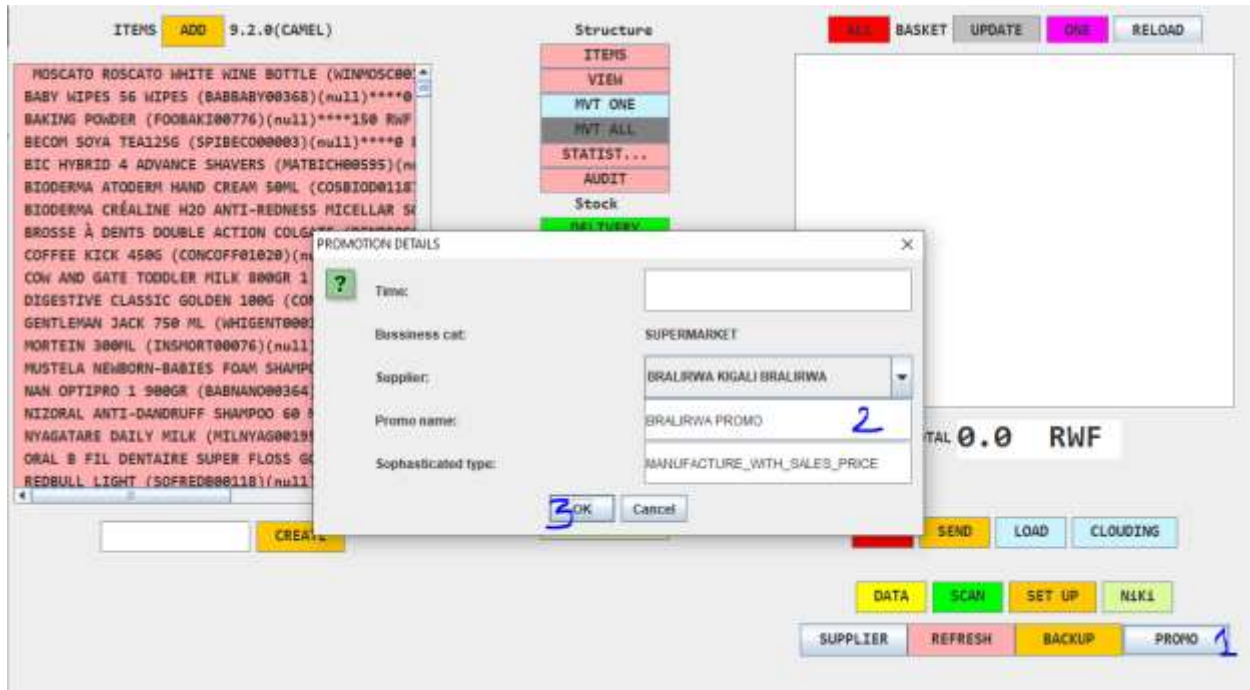

PROMOTION (NIKI PRICES)

PROMO is used to pull prices from NIKI that are categorized under promotion. This prices will be permanent and not be able to change as there are change on NIKI

STEPS

1. Click PROMO button → enter PROMO NAME to add → Click OK

The screenshot shows the software interface with a list of items on the left and a 'PROMOTION DETAILS' dialog box in the center. The dialog box has the following fields:

- Time:** (empty text box)
- Business cat:** SUPERMARKET
- Supplier:** BRALIRWA KIGALI BRALIRWA
- Promo name:** BRALIRWA PROMO (with a blue '2' next to it)
- Sophisticated type:** MANUFACTURE_WITH_SALES_PRICE

At the bottom of the dialog box, there are 'OK' and 'Cancel' buttons. The 'OK' button has a blue '3' next to it. In the background, the 'PROMO' button is visible at the bottom right of the interface, with a blue '1' next to it.

POS CAISSE

ISHYIGA POS CAISSE is developed in order to make simple management between seller and buyer of different products and get daily sales reports. It helps managers to know all transactions done in the company.

SELL

SELL is used for purchasing products.

STEPS
